

Ø320mm

## Product Description

This is a round, surface-mounted LED panel light. It features a clean and minimalist design with a white finish. The light appears to be compact and relatively thin, typical of LED panel lights. A black power cable extends from the side of the fixture, terminating in a connector. The front surface is a smooth, diffused lens designed to provide even and glare-free illumination. This type of light is commonly used for general lighting in residential, commercial, and office spaces due to its energy efficiency and modern aesthetic.

### Lamp

Light Source	: LED
