

Product Description

An up and down wall light is a versatile lighting fixture designed to illuminate both upwards and downwards simultaneously. These lights are typically sleek and modern in design, often used to create a subtle yet striking ambiance in both indoor and outdoor spaces. They can be mounted vertically on walls to cast a gentle wash of light upwards for indirect illumination and downwards to provide functional lighting. This dual-directional lighting effect not only enhances the aesthetics of a space but also adds depth and dimension to walls, making them a popular choice for architectural and decorative lighting purposes.

Lamp

Light Source	: LED
CRI	: >80
Rated Life	: 30,000 HRs
Wattage	: 2 x 12W
Beam Angle	: 90°
CCT	: 2700K 3000K 4000K 6500K

Body

Mounting Type	: Wall mounted
Color	: Black
Material	: Aluminum & Glass
Diameter	: 90 mm
Length	: 220 mm

Electric

Voltage	: 220 - 240V/50-60Hz
Luminaire Efficacy	: 80 lm/W
Output Current	: Constant Current
Output Voltage	: SELV

Other

Protection	: IP65
