

Product Description :

This is a modern and minimalist linear chandelier featuring a sleek, black metal frame. The design consists of a central vertical rod connected to a gently curving horizontal arm. At each end and potentially along the curve, there are spherical, white glass diffusers that house the light sources. The overall aesthetic is elegant and understated, with a focus on clean lines and a balanced form. The light sources are likely LED to provide energy efficiency and a soft, ambient glow through the glass spheres.

Lamp

Light Source	: LED
Rated Life	: 30,000 HRs

Body

Finish	: Gold
Large Ring Dia - Height	: 800mm - 90mm
