

Product Description :

Fabricated with a heavy-duty iron chassis, the EIKON Chandelier presents an 830mm outer diameter and a shallow 430mm body height. The luminaire incorporates twelve G9 lamp bases 220 - 240V positioned to cast uniform, 360-degree ambient light. Built for long-term structural reliability, its modern open-frame design offers a high-lumen lighting solution for space-constrained ceiling heights.

Lamp

Light Source : Bulb G9

Body

Finish : Golden

Material : Iron

Diameter : 830mm

Height : 430mm

Electric

Voltage : AC 220 - 240V/50-60Hz

More Information

Protection : IP20

Bulb Included : No
