

Product Description

This is a sleek and modern recessed linear LED light, identified as the "LLT5080" model from the Lightronic brand. Designed for seamless integration, it provides a clean line of illumination when installed into ceilings. The fixture is constructed from durable aluminum with a black finish. The light source is a double-layer striplight LED, ensuring consistent and efficient light output. It operates at a wattage of 30W/m and delivers a warm color temperature of 2700K.
