

## Product Description

This striking pendant light features a vibrant red glass body with a distinctive textured finish that creates a sophisticated glow when illuminated. It is designed with a broad 250mm diameter and a 300mm length, suspended from a cable that allows for a total height of up to 2000mm. The fixture utilizes a standard E27 light source and is fully compatible with dimmable options to help set the perfect mood in any room. Engineered for reliability, it includes a high-quality Tridonic power supply and operates on a standard voltage range of 220V–240V. With its bold color and elegant dome shape, this light serves as an eye-catching centerpiece for modern interior spaces.
