

Product Description

This modern pendant light features a striking, organic silhouette defined by its flowing, wave-like metallic frame. Constructed from durable metal with a warm finish, the fixture is suspended by thin cables to create an elegant "floating" effect in any contemporary space. It utilizes an integrated LED light source that follows the inner curves of the sculptural body to provide soft, energy-efficient illumination. With a total length of 1200mm, height of 300mm the unit is engineered to operate reliably on a standard voltage range of 220V–240V. Overall, this minimalist fixture serves as both a functional light source and a sophisticated piece of architectural art for the home.
