

IP20

Product Description

LED strip light features densely packed LED chips directly on the substrate, creating a smooth, continuous band of light without visible individual LEDs. This design offers uniform illumination and flexibility for various lighting applications, often used for accent, decorative, or task lighting.

Lamp

Power	: 14W/M
Rated Life	: 20,000 HRs
Led Qty	: 840LEDs/M
Color	: RGB
Beam Angle	: 180°

Dimensions

Length	: 5000 mm
Width	: 10mm
Height	: 2.8mm
Cut Length	: 62.5mm

Electric

Voltage	: DC 24V
Working Temperature	: 20~50° C

Color Temperature

Red	: 120lm
Green	: 400lm
Blue	: 55lm

Other

Protection	: IP20
