

IP65

DIMENSION

Product Description

"Pixel RGB strip lights feature a flexible, high-density circuit board engineered for individual diode control. By integrating smart ICs at regular intervals, each LED acts as an independent pixel, allowing for fluid motion, chasing effects, and precise color calibration. These strips deliver professional-grade brightness and distribution for both immersive indoor displays and rugged outdoor installations.

Lamp

Power	: 14 w/m
Rated Life	: 50,000 HRs
CCT	: RGB
Led Qty	: 60LEDs/M
Beam Angle	: 120°

Dimensions

Width	: 12.5 mm
Length	: 5000 mm
Distance between 2 LED	: 16.7 mm
Cut Point	: 100 mm

Electric

Input Voltage	: DC24V
Lumen Red	: 125 lm
Lumen Green	: 355lm
Lumen Blue	: 75lm
Output Voltage	: Constant Voltage

Other

Protection	: IP65
------------	--------

Options

Dimmable Option	: 0/1 - 10V Dali
-----------------	--------------------

PIXEL RGB 14W

RGB Strip Light
