Lightronic®

Led Strip Light

IP65  

## Product Description

This is capable of delivering a wide range of correlated color temperatures from 2400K to 6000K. Engineered for durability and efficiency, the unit operates at 19W/M and boasts an IP65 protection rating, making it suitable for demanding environments. We have designed this system with a high density of 60 LEDs per meter to ensure smooth, consistent light distribution across its 5000 mm length. The integration of advanced dimming options, including Triac, 0/1-10V, and Dali, allows for precise atmospheric control and energy management. With a solid Color Rendering Index of 80 and a rated life of 20,000 hours, this fixture provides a reliable and professional lighting foundation for any project.
