

Product Description

This modern wall-mounted LED reading light features a durable black aluminum finish that blends seamlessly into contemporary interiors. It is equipped with an energy-efficient 3W LED light source that produces a warm 3000K illumination, ideal for bedside or workspace lighting. Designed for longevity and convenience, the fixture offers a long rated lifespan of up to 30,000 hours and includes a built-in On/Off rocker switch right on the base. Its compact body measures 150mm in length, 50mm in width, and 30mm in height, holding a slim 27mm spotlight head. Operating standardly on AC 220-240V with an IP20 protection rating, this directional spotlight is engineered for reliable indoor performance.
