

XENON 16 x 16

LED Neon Light

Dimension

Product Description

This is a flexible, waterproof LED neon light strip, designed for both decorative and functional lighting. It features a water-repellent rating of IP68, making it suitable for applications that involve temporary or continuous submersion in water, such as pools or fountains. The light is equipped with a 2835 LED light source that is described as being both bright and energy-efficient. It operates on a DC24V voltage with a power of 10W per meter. The light strip contains 140 LEDs per meter and comes in a standard length of 5 meters (16.56 feet). It offers excellent color rendering with a CRI of >90.

Lamp

Power	: 8W
