

Product Description

This ultra-slim 5mm LED strip delivers high-density illumination with 480 LEDs per meter and a high CRI >90 for superior color accuracy. Operating at DC24V and 5W/M with an efficacy of 100 lm/W, it provides energy-efficient performance. Featuring IP20 protection, multiple CCT options (2700K–6500K), and Triac/0-10V/Dali dimming support, it is ideal for precise architectural lighting.

Lamp		Electric	
Power	: 5 W/M	Voltage	: DC24V
